The International Potato Center (CIP) seeks to reduce poverty and to achieve food security on a sustained basis in developing countries through scientific research and related activities on potato, sweetpotato and other root and tuber crops and on the improved management of natural resources in the Andes and other mountain areas. CIP is a Future Harvest Center supported by the Consultative Group on International Agricultural Research (CGIAR).

Sweetpotato Post-Harvest Research and Development in China

Edited by

Keith O. Fuglie and Michael Hermann

Proceedings of an International Workshop
held in
Chengdu, Sichuan
People's Republic of China
November 7-8, 2001

Contents

Introduction to Volume		1
Keith O. Fuglie and Michael Hermann		
Section 1: Utilization and Breeding of Sweetpotato in China		
1	The sweetpotato economy of China with new estimates of sweetpotato utilization <i>Huang Jikun, Song Jun, Qiao Fanbin and Keith O. Fuglie</i>	6
2	Sweetpotato as animal feed: The perspective of crop improvement for nutrition quality <i>Zhang Dapeng and Li Xiu-Qing</i>	26
Section 2: Sweetpotato Utilization for Animal Feed		
3	The livestock revolution and feed demand in China <i>Li Xianglin</i>	40
4	Economic competitiveness of sweetpotato as animal feed in China <i>Huang Jikun, Song Jun, Qiao Fanbin and Keith O. Fuglie</i>	48
5	China's hog production and efficiency: A comparative study <i>Zhang Xiaohui and Agapi Somwaru</i>	67
6	Sweetpotato utilization in pig production in Sichuan Province <i>Zou Chengyi, Li Bin, and Yang Jiabao</i>	83
7	Sweetpotato roots silage for efficient feeding of weaning and finishing pigs in China <i>Liu Zuohua, Liu Zonghui and Liu Wen</i>	88
Section 3: Sweetpotato Utilization for Starch		
8	Starch markets in Asia <i>Keith O. Fuglie and Christopher G. Oates</i>	100
9	Sweetpotato processing and product research and development at the Sichuan Academy of Agricultural Sciences <i>Xie Jiang, Hu Jianjun and Wang Yi</i>	114
10	The effects of processing technology on sweetpotato starch yield and quality <i>Hu Jianjun</i>	127
11	Development of a standard protocol for the processing of high quality sweetpotato starch for noodle production <i>Kuakoon Piyachomkwan, Klanarong Sritroth, Kanjana Chinsamran, Kamlai Laohaphattanalert and Christopher G. Oates</i>	140
